Subject: GenX sampling Round 2 draft letter
Attachments: Chemours_GenX_sampling request2_4_13_18_draft.docx

Attached is the draft letter we plan to send to Chemours regarding our request for additional GenX sampling in drinking water. This version incorporates comments from Region 5's program and ORC.

Ex. 5 AC/DP

I notified OGWDW of our planned next steps.

Joan, I'm sure whoever you work with in HQ will want to see it. It is probably worth holding off sending until we know if more people want to tweak it.

We need to get the letter out early next week so we can ensure Chemours can get the sampling done in May.

Thanks,

Rick
